## Dental Care

Dental services in Liverpool are currently extremely limited. There is currently one dentist accepting new NHS patients in the following postcodes L15, L16, L17, L18, and L19 ONLY (They will close their books when full). Some have very long waiting lists that they could add your name to so that you might get seen at some point in the future.

If you have an existing dentist in your home area, we strongly recommend you keep them.

As the list of local dentists with waiting lists is changing regularly, to find out the most up to date information about dental waiting lists, please contact the Healthwatch Liverpool team, using the contact details found at the end of this page. .

### Emergency Dental Helpline – EMERGENCY APPOINTMENTS ONLY
